Inc. Magazine Unveils 28th Annual List of America's Fastest-Growing Private Companies—the Inc. 500

**Pfister Energy Ranks No. 343 on the 2009 Inc. 500
with Three-Year Sales Growth of 720.9%**

NEW YORK, November 18, 2009 -- *Inc.* magazine ranked Pfister Energy No. 343 on its 28th annual Inc. 500, an exclusive ranking of the nation's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs. Companies such as Microsoft, Zappos, Intuit, GoDaddy, Under Armour, Jamba Juice, American Apparel, Oracle, and hundreds of other powerhouses gained early exposure as members of the Inc. 500.

"If you want to know which companies are going to change the world, look at the Inc. 500," said *Inc.* editor Jane Berentson. "These are the most dynamic, fast-growth companies in the nation, the ones finding innovative solutions to problems, creating smart systems, and inventing products we soon discover we can't live without. The Inc. 500 list is *Inc.* magazine's tribute to American business ingenuity and ambition."

Pfister Energy, based in Paterson, NJ with an office in Baltimore, MD, is a renewable energy company providing innovative power solutions and energy efficiency measures for commercial, industrial, and institutional facilities. The company is a national provider and installer of turnkey renewable energy and onsite distributed power generation systems. As a total solutions provider, Pfister Energy offers customized *alternative energy systems* and assists clients with the implementation of the latest technologies, with an emphasis on building integrated applications.

The 2009 Inc. 500 companies, unveiled in the September issue of *Inc.* magazine and on Inc.com, reported aggregate revenue of \$18.4 billion—up significantly from last year's \$13.7 billion—and a median three-year growth rate of 880.5 percent. The companies on this year's list are also responsible for creating more than 55,000 jobs since their founding, making the Inc. 500 perhaps the best example of the impact private, fast-growing companies can have on the overall U.S. economy.
