

Zero Energy Building

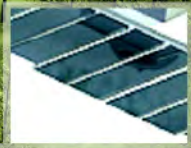

AEROTECHTURE Wind Turbine

SopraNature Living Vegetated Green Roof

Embedded LED Pavers flush with surface

SopraSolar Integrated Roofing System

Pfister Sunshine Daylighting System

Architectural Wind-AVX1000

UNI-SOLAR thin film amorphous silicon flexible modules laminated to standing seam metal

Pfister Glass-in-Glass Solar Photovoltaic Glazing, south facing glass

Solar Integrated Glass

Below grade Pfister RAINWATER RECOVERY building roof and site runoff storm water recovery (no runoff off site) and landscape irrigation

Vertical Aspirating or glazed solar wall "chimney" for length of south elevation providing up to 80% of required heating and ventilation

Solar Lighted Bus Shelter

Pfister UNI-SOLAR photovoltaic modules laminated to curved steel parking shade structure roof, for lighting and electric vehicle charging

Solar Street Light

Fuel Cell
